Clearly Stylish

Beautiful interiors deserve beautiful accessories, and our contemporary acrylic pole range Ice certainly adds a luxurious, clean aesthetic to any scheme. Making a stylish statement through a combination of clear translucent acrylic and modern metal accents, the Ice collection allows you to dress windows with minimalist flair. The look is light, airy, and sophisticated. The contemporary lines can be personalised with a choice of five finial designs; Pure a classic ball finial, Dewdrop a modern interpretation of the classic ball, Reflection inspired by Art Deco lines and, Mineral a stylised ellipse design. All available in a choice of four metal finishes, two satin metals, Brass and Nickel and two mirrored, Chrome and Black Nickel. With so many combinations available, Ice fits perfectly into both traditional and contemporary décor.

Calm and Collected

Offering luxurious style, Ice is available as a 35mm premium quality, acrylic pole. Made of solid acrylic for strength, the pole is designed to provide the durability needed to support drapes and withstand daily use, however due to the nature of acrylic we recommend the use of lightweight to medium curtains depending on the length. Engineered for a smooth performance the complementing curtain rings are fully lined, to help drapes move freely along the pole, without scratching. A choice of brackets means poles can be mounted to a wall or ceiling.

Available as complete poles sets for ease of ordering, or individual components for greater flexibility, the Ice collection also includes fitting options which allow you to use Ice in a bay configuration. In addition, it is possible to have your pole cut to your exact requirements using our Cut Down Service, something we recommend as the acrylic can be difficult to cut. Ice is sure to complement multiple window styles, from the more traditional to those with simple modern lines. A truly functional yet glamorous collection.

Satin Nickel

Satin Nickel has a warmer grey undertone, which is much loved by designers and architects for its softer appearance and modern aesthetics. A chic finish for contemporary homes.

Satin Brass

Satin Brass offers the warmth of traditional brass, with a smooth brushed finish for a contemporary, eye-catching appearance. The beauty of the rich brass contrasts beautifully with the clear acrylic of Ice.

Chrome

The high shine of Chrome subtly reflects the colours and textures from its surroundings, providing the perfect contrast to the translucency of Ice, whilst creating contemporary lines.

	35mm Solid Acrylic Pole IC35AC/120	IC35AC/180	IC35AC/240

Note, using the Joiner and brackets it is possible to create longer poles.

Whilst Ice does have a solid acrylic pole at its core, we recommend longer, joined configurations are used as dress poles only.

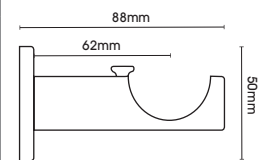

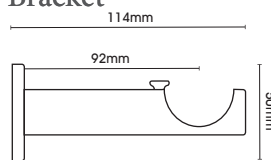

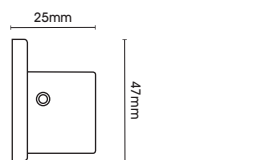

Recommended for lightweight or medium weight curtains, depending on the length.

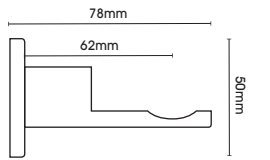

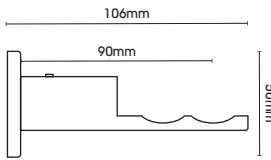

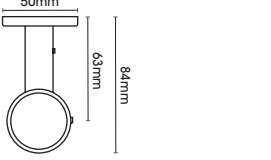

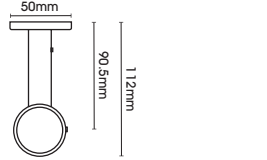

If you need this pole cutting to size we recommend that you utilise our Cut Down Service, to ensure there is no damage to the pole during cutting.

Curve Appeal

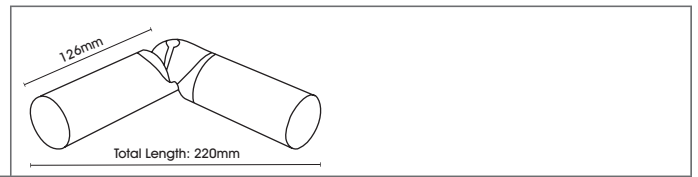

The Ice pole can make a stunning addition to bay windows, thanks to the simple elbow joint which can be purchased separately.

Whilst the elbow joint creates a full functioning system we recommend using as a dress pole only, as it can be more difficult to pass the rings over the joint.

Elbow Joint

Sold as singles.
